SECTION A – Part 1

1. Glossary

Adjustments Budgets – Prescribed in section 28 of the Municipal Finance Management Act. It is the formal means by which a municipality may revise its budget during a financial year.

Allocations – Money received from Provincial and National Treasury.

Budget – The financial plan of a municipality.

Budget related policy – Policy of a municipality affecting or affected by the budget.

Capital Expenditure – Spending on municipal assets such as land, buildings and vehicles. Any capital expenditure must be reflected as an asset on a municipality's balance sheet.

Cash Flow Statement – A statement showing when actual cash will be received and spent by the Municipality, and the month end balances of cash and short term investments. Cash receipts and payments do not always coincide with budgeted revenue and expenditure timings. For example, when an invoice is received by the Municipality it is shown as expenditure in the month that the services or goods are received, even though it may not be paid in the same period.

DORA – Division of Revenue Act. The annual piece of legislation that indicate the allocations from National Government to Local Government.

Equitable Share – A general grant paid to municipalities. It is predominantly targeted to assist with free basic services.

GDFI - Gross Domestic Fixed Investment

GFS – Government Finance Statistics. An internationally recognised classification system that facilitates comparisons between municipalities.

IDP – Integrated Development Plan. The main strategic planning document of a municipality.

KPI – Key Performance Indicators. Measures of service output and/or outcome.

LM – Langeberg Municipality

MFMA - Municipal Finance Management Act (No 53 of 2003). The principle piece of legislation relating to municipal financial management.

MTREF – Medium Term Revenue and Expenditure Framework as prescribed by the MFMA sets out indicative revenue and projected expenditure for the budget year plus two outer financial years to determine the affordability level.

Operating Expenditure – Spending on the day to day expenses of a municipality such as general expenses, salaries & wages and repairs & maintenance.

Rates – Local Government tax based on assessed valuation of a property.

TMA – Total Municipal Account

SDBIP – Service Delivery Budget Implementation Plan. A detailed plan comprising quarterly performance targets and monthly budget estimates.

Strategic Objectives – The main priorities of a municipality as set out in the IDP Budgeted spending must contribute towards achievement of these strategic objectives.

Vote – One of the main segments into which a budget is divided, usually at department level.

2. Mayors Report

To be distributed at the Council Meeting.

3. Resolutions

That Council approves the following:

- (a) That the consolidated Operating budget of R 456 307 310, Capital budget of R 53 909 730, and budgeted cash flows, as set out in the Municipal Budget be adopted by Council and that it constitute the Budget of the Council for 2013/2014 financial year as well as medium term (indicative) budgets for the 2014/2015 and 2015/2016 financial years be approved.
- (b) That the Integrated Development Plan and any amendments thereto, be approved.
- (c) That the rates and tariffs for water, electricity and other municipal services be approved.
- (d) That all other matters prescribed in sections 17(1) (a-e); 17(2) and 17(3) (a-m) of the Municipal Finance Management Act are included in or accompany the budget document and be approved.
- (e) That the Tariff-, Rates-, Credit Control and Debt Collection-, Cash Management and Investment-, Virement-and Funding and Reserves Policy be approved.
- (f) That the measurable performance objectives for 2013/2014 for operating revenue by source and by vote be approved.

4. Executive Summary

The Municipality's 2013/14 budget amounts to R 510 217 040, represented by a Capital Budget of R 53 909 730 and an Operating Budget of R 456 307 310.

Primary Operating Budget revenue- and expenditure categories reflect the following year-on-year budget value increases (estimated 2013/14 vs. original 2012/13 budget):

Revenue / tariff increases

- Rates for Residential and Business property will increase by 7.5%.
- The increase of Water Tariffs will be 7.5%.
- The increase of Sanitation Tariffs will be 7.8%.
- The tariff increase for Refuse Removal will be 8.5%
- The increase of Electricity Tariffs will be 7%.

Expenditure category increases

Salaries and Wages (including increments)
General Expenses
7.50%
Repairs & Maintenance (increase)
Capital Costs (decrease)
Bulk Purchases (Water and Electricity)
8.00%

The projected increase results from a combination of factors such as (relatively low) generic growth to core tariff-based services, operational efficiencies and revenue-related policies aimed at optimizing and sustaining all revenue sources.

The financing of capital expenditure from own funds (CRR) totals R 28 844 370. This amount represents an increase to originally planned values and is earmarked to address specific infrastructural capital investment aligned to IDP focus areas. This level is considered to be affordable over the MTREF 3-year period.

Capital investment funding ex Own Funding represents a significant portion (46.50%) of the Municipality's Capital Budget in 2013/14 and consist mainly of the Municipal Infrastructure Grant (MIG).

.

Langeberg Municipality has prepared a multi-year budget in accordance with the Municipal Budgeting and Reporting Regulations and is presented in the table below:

SECTION A - Part 2

1. Budget Process Overview

1.1 Political oversight of the budget process

Section 53 (1) of the MFMA stipulates that the mayor of a municipality must provide general political guidance over the budget process and the priorities that guide the preparation of the budget.

Section 21(1) of the MFMA states that the Mayor of a municipality must co-ordinate the processes for preparing the annual budget and for reviewing the municipality's integrated development plan and budget-related policies to ensure that the tabled budget and any revisions of the integrated development plan and budget-related policies are mutually consistent and credible.

Furthermore, this section also states that the Mayor must at least 10 months before the start of the budget year, table in municipal council, a time schedule outlining key deadlines for the preparation, tabling and approval of the annual budget.

This time schedule provides for political input from formal organizations such as portfolio Committees.

1.2. Schedule of Key Deadlines relating to budget process [MFMA s21 (1) (b)]

The IDP and Budget time schedule of the 2013/2014 budget cycle was approved by Council in September, ten months before the start of the budget year in compliance with legislative directives.

1.3. Process used to integrate the review of the IDP and preparation of the Budget

Updating the IDP and Budget is an evolving and re-iterative process over a 10 month period. The initial parallel process commenced with the consultative process of the IDP in 2012 and the update of the MTREF to determine the affordability and sustainability framework at the same time. A review of the approved 2012/2013 IDP were undertaken in 2012.

1.4. Process for consultation with each group of stakeholders and outcomes

Following tabling of the draft budget in March 2013, local input will be solicited via notices published in all major newspapers, including The Cape Times, Die Burger and The Gazette.

Comments on the IDP/Budget will be made by the public via verbal presentations, facsimiles, emails and in the form of correspondence to the municipality and will be considered for incorporation as part of the draft budget process.

1.5. Stakeholders involved in consultations

The tabled budget will be provided to National Treasury and Provincial Treasury in April 2013 for their consideration in line with S23 of the MFMA.

1.6. Process and media used to provide information on the Budget to the community

The Municipality's consultation process on its draft IDP review and budget will be held during April 2013, where various community organizations and representatives may/will come forward to give input and to reprioritize some of their needs.

Community representatives and organizations had to review the priorities given previously and to ascertain whether it has been captured as priorities during the 2012/13 IDP process.

1.7. Methods employed to make the Budget document available (including websites)

In compliance with the Municipal Finance Management Act and the Municipal Systems Act with regards to the advertising of Budget Documents (including the Tariffs, Fees and Charges for 2013/14), advertisements will be placed in The Cape Times, Die Burger and the community newspapers. The information relating to resolutions and budget documentation will be displayed at the notice boards in the municipal offices as well as libraries.

In compliance with S 22 of the MFMA, the Budget documentation will be published on the municipality's website following the approval thereof at Council.

2. IDP overview and Amendments

The Vision of the Municipality

The Municipality's long term vision:

"Creating a stable living environment and sustainable living conditions for all citizens".

Alignment with Provincial and National Government

Langeberg Municipality's development plan needs to align with National and Provincial initiatives to ensure optimal impact from the combined efforts of government. In this regard there are six critical elements: Accelerated and Shared Growth-South Africa (ASGI-SA), National Spatial Development Perspective (NSDP), National Strategy for Sustainable Development (NSSD), Provincial Growth and Development Strategy (PGDS) and Provincial Spatial Development Framework (PSDF).

All these feed into and influence the Integrated Development Plan.

Langeberg Municipality Budget Priorities (Key Performance areas)

The Municipality's 2013/14 to 2015/16 Integrated Development Plan focuses on ten strategic focus areas. The concrete objectives for each strategic focus area have been outlined and elaborated on in the Strategic Plan for 2013-2017. These objectives will be used to further develop key performance indicators against which performance implementation monitoring and reporting will be done. The corporate scorecard outlines these indicators and targets.

The ten strategic outcomes are:

- sustainable integrated human settlement
- sustainable civil engineering infrastructure services
- energy efficiency for a sustainable future
- provision of a safe and efficient road network
- promote public safety
- provision of a clean environment
- social and community development
- growth and economic development
- sound financial management
- institutional development and corporate governance

• Amendments to the Integrated Development Plan

Amendments were made to the Integrated Development Plan.

The complete Integrated Development Plan will be distributed at the Council Meeting of 26 March 2013.

3. Measurable performance objectives and indicators

(a) KEY FINANCIAL INDICATORS AND RATIOS

Information regarding key financial indicators and ratios are provided on Supporting Table SA 8.

(b) MEASURABLE PERFORMANCE OBJECTIVES

Information regarding revenue is provided as follows:

Revenue for each vote
 Revenue for each source
 SA 26
 SA 25

Provision of Basic Services:

(i) Amount in rand value of each of the free basic services:

•	Refuse	R 7 905 800
•	Water (Basic charges)	R 3 146 060
•	Sewerage	R 10 417 730
•	Electricity	R 3 543 450

(ii) Level of service to be provided

Indigents will receive 50 kWh of electricity and 6 kilolitre of water per month while their basic charges for water, refuse and sewerage will be subsidized.

(iii) Number of households to receive free basic services

There is budgeted for 6 272 households that will receive 50 kWh electricity per month while only indigent consumers in the municipal area will receive 6 kilolitre water per month.

(iv) Total budgeted for providing each basic service

•	Refuse	R 9 809 890
•	Water (Basic charges)	R 34 189 980
•	Sewerage	R 11 706 500
•	Electricity	R 260 327 850

(c) PROVIDING CLEAN WATER AND MANAGING OF WASTE WATER

The following information is provided as requested in terms of Circular 58 from National Treasury.

Name of the Water Service Authority in the area and name of the Water Service Provider, and who actually manages the provision of drinking water and waste water management (if outsourced).

Langeberg Municipality is both the Water Service Provider and the Water Service Authority and manages the provision of drinking water and waste water management.

The Blue Drop and Green Drop performance ratings (as determined by the Department of Water Affairs) applicable to all water and waste water services within the municipality, highlighting areas that require attention.

Below is the blue drop ratings provided by the Provincial Department. Towns were scored as follows:

•	Ashton	57.8
•	Robertson	54.8
•	McGregor	54.75
•	Montagu	50.8
•	Bonnievale	54.8

New results are not yet available and the information above still relates to 2012.

<u>The current status of the municipality's Water Safety Plan and measures to be taken in 2012/13 and over the MTREF to implement it.</u>

Water Safety Plan: There is no formal water safety plan in place.

A brief outline of problems that the municipality is experiencing with regards to the management of drinking water and sewerage.

- A. Unqualified personnel: Existing personnel, their ABET skill levels are inadequate to allow them for further secondary training. If qualified personnel are appointed, current personnel will be redundant which is not acceptable.
- B. Inadequate laboratory equipment.
- C. Availability of funds in the annual budget for purchasing of chemicals throughout the year without any time consuming strains, and better planning of our budget for civil services.

An outline of the steps the municipality needs to take to address the problems noted.

Step 1.

When vacancies become available in the future qualified personnel must be appointed.

Step 2.

Current personnel must receive practical training at the work place.

Step 3.

The possibility of acquiring more equipment to be able to do more tests on our own water quality on our own premises.

Step 4.

Not all plants are on standard to provide services for individual towns. Constant upgrading is therefore necessary to be able to manage water qualities.

2013/14 budget and MTREF allocations proposed/made to fund the above measures.

Funds are provided in the budget for training as well as upgrading of purification plants.

4. Overview of Budget Related Policies and Amendments

The following budget related policies have been approved by Council, or have been reviewed / amended and / or are currently being reviewed / amended, in line with National Guidelines and Legislation.

- Tariff Policy
- Asset Management Policy
- Credit Control and Debt Collection Policy
- Cash Management and Investment Policy
- Rates Policy
- Supply Chain Management Policy
- Virement Policy
- Funding and Reserves Policy

Policies which have been amended according to the recommendation here- under will be available at libraries in the municipal area and the website of the municipality.

Herewith information regarding the amendment of policies:

(a) TARIFF POLICY

The Municipal System Act requires Council to adopt a Tariff Policy. The general financial management functions covered in section 62 of the MFMA includes the implementation of a tariff policy. Specific legislation applicable to each service has been taken into consideration when determining this policy.

Background

All consumers therefore receive free 6 kilolitre of water per month. It is proposed that free 6 kilolitre of water per month are only provided to indigents, as per Government policy. It is also proposed that a minimum tariff (R 1 per kilolitre) be charged for the first 6 kilolitre of water.

Comments

To be able to apply for grant funding (RBIC) for the upgrading of water networks and infrastructure, the municipality must demonstrate that water are used optimally, economically and responsible. By providing free water to all, will indicate that the municipality do not have water problems. Free water is supposed to be provided to indigents only. To ensure that there is not an additional burden placed on consumers, it is recommended that a low tariff (R 1) be charged for the first 6 kilolitre of water per month.

Recommendation

That paragraph 7(1)(vi) of the Tariff Policy be amended to ensure that a tariff of R 1 are charged for the first 6 kilolitre of water, as indicated hereunder:

In accordance with the Indigent Support policy, a water supply of 6 kl per month will be provided at a tariff of R0 to indigents. The first 6 kilolitre of water per month will be provided at R1 per kilolitre to all other consumers.

(b) ASSET MANGEMENT POLICY

Background

The Asset Management Policy was checked by Internal Audit and certain adjustments were recommended. It is important that the necessary changes be made to the policy.

Recommendation

That the following in paragraph 7.3.1.1 of the Asset Management Policy be amended to read as follows:

Every Manager of a Department shall, however, ensure that any moveable asset item with a value less than R500 (VAT EXCL) and with an estimated useful life of more than one year, shall be recorded on an Inventory Listing and must be forwarded to the Asset Management Section. Every Manager of a Department shall moreover ensure that the existence of items recorded on such inventory stock lists are physically verified from time to time, and at least once in every financial year, and any amendments which are made to such inventory stock lists pursuant to such stock verifications shall be retained for audit purposes.

That the following in paragraph 7.4.2 of the Asset Management Policy be amended to read as follows:

The following matrix will assist in distinguishing capital expenditure from maintenance expenditure:-

Capital Expenditure	Maintenance			
 Acquiring a new asset 	 Restoring an asset so that it can 			
 Replacing an existing asset 	continue to be used for its			
	intended purpose			
• Further developing an existing	Maintaining an asset so that it can			
asset so that its original useful	be used for the period for which it			
life is extended	was initially intended.			
 Enhancing an existing asset so 				
that its use is expanded				

5. Overview of Budget Assumptions

Expenditure

Salaries and Allowances

Wage negotiations was finalised between the Unions and the South African Local Government Association and a salary increase of 6.95 % will be implemented from 01 July 2013 and it is budgeted accordingly.

The Minister of Finance will approve increases of councillors during the 2013/14 financial year, and the increase will be implemented as from 1 July 2013.

It is also assumed that the current employees will not resign and therefore notch increases for all employees were budgeted for.

General expenditure

It is assumed that costs for services and fuel will increase above the current inflation target of 5.6 %. It is also assumed that the capital projects for 2013/14 will be completed during the financial year as there were budgeted for the depreciation of such projects as per General Recognized Accounting Practice (GRAP). Depreciation on new capital expenditure is calculated at a varying rate ranging between 9 and 20 years depending on the nature of the asset.

Repairs and Maintenance

It is assumed that municipal infrastructure and assets will be maintained as per previous years and that no major breakages will take place during the financial year.

Capital costs

It is assumed that interest rates will be stable during the financial year, but the provision for capital has not been decreased.

Bulk Purchases

It is assumed that electricity tariffs of Eskom will increase by 8% as from 1 July 2013, as approved by NERSA.

Revenue

Households

It is assumed that the total number of households in the municipal area (the tax base) will stay stable during the financial year.

Collection rate for municipal services

It is assumed that the collection rate (percentage of service charges recovered) for the financial year will be the same as the previous payment rate.

In accordance with relevant legislation and national directives, the estimated revenue recovery rates are based on realistic and sustainable trends. The Municipality's collection rate is set at an average of 98% when comparing current levies to current payments. Adequate provision is made for non-recovery. Whilst collection rates will vary between different services and be based on current trends, special provision was made to cater for roll-out of an extended indigent program.

Grants

It is assumed that the National and Provincial grants as per Division of Revenue Act (DORA) which has been included in the budget will be received during the 2013/14financial year.

<u>Indigents</u>

It is assumed that the indigents will decrease during the financial year as all accountholders must apply for indigent subsidy as from 1 July 2013.

6. Overview of Budget Funding

Summary

The operating budget for 2013/14 will be financed as follows:

•	Charged for electricity, water, refuse and sewage	R 316 034 220
•	Property Rates	R 32 426 480
•	Provincial and National Grants	R 81 015 740
•	Sundry charges / Other	R 27 189 580

The capital budget for 2013/14 will be financed as follows:

•	Own Funds (Capital Replacement Reserves)	R 28 844 370
•	Grants	R 25 065 360

Reserves

The accumulated surplus will be used to finance the depreciation on assets as the impact of the full provision for depreciation will make the tariffs not affordable to residents. The financing of the depreciation will be phased in over a medium to long term period.

Sustainability of municipality

The way that the budget is funded will ensure that the municipality will be sustainable on the short term. The full effect of huge increases in electricity tariffs, which the municipality has no control over, may on the long run impact negatively on the sustainability of the municipality. This is a huge concern for the municipality.

Impact on rates and tariffs

The way that the budget is funded will ensure that tariff increases will range from 5.9% to 8%. The 8% increase in electricity tariffs of Eskom, which the municipality has no control over, will have a negative impact on the economy.

Property valuations, rates, tariffs and other charges

The valuation of properties is based on valuations as on 1 July 2011. The General Valuation was done in terms of the Property Rates Act, (Act 6 of 2004) and implemented on 1 July 2011.

The rates tariffs as well as tariffs for electricity, water, refuse, sewage together with the sundry tariffs are listed in Section B – Tariffs. The tariff increases are also indicated.

Collection Rate

Revenue levels for service charges and rates for the budget year were based on the previous year's collection rates:

Rates 110.96%
 Electricity 91.40%
 Water 94.43%
 Sanitation 105.96%
 Refuse 105.62%

Planned savings and efficiencies

The following areas were identified for possible savings after the efficiency of the usage of the assets/services has been evaluated:

- Telephone costs
- Overtime

<u>Investments</u>

Particulars of monetary investments:

Deposit R 30 million Maturity date – 12 July 2013
Deposit R 25 million Maturity date – 21 June 2013
Deposit R 25 million Maturity date – 31 May 2013

Contributions and donations received

There was not budgeted for any contributions and donations to be received.

Planned proceeds of sale of assets

None

Planned use of previous years cash backed accumulated surplus

It is planned to use the previous year's cash backed surplus to increase the Capital Replacement Reserves, for future capital projects.

Particulars of existing and any new borrowing proposed to be raised

There is no new borrowing proposed.

Particulars of budgeted allocations and grants

Operating Budget

•	Finance Management Grant	R 1 300 000
•	Equitable Share Allocation	R 53 158 000
•	Maintenance of Proclaimed Roads	R 172 000
•	Library Services: Conditional Grant	R 1 363 000
•	Human Settlement Development Grant	R 17 687 000
•	Library Services: Replacement Funding	R 3 794 900
•	Expanded Public Works Programme	R 1 000 000

Capital Budget

•	Integrated National Electrification Program	R 500 000
•	Municipal Infrastructure Grant	R 19 299 000
•	Library Services: Conditional Grant	R 2 500 000
•	Library Services: Replacement Funding	R 217 100
•	Provincial Department of Sport and Recreation	R 500 000
•	Provincial Department: Integrated Human Settlements	R 3 700 000
•	Municipal System Improvement Grant	R 890 000

FUNDING ASSESSMENT FOR 2013/14

The following table lists the factors that have been reviewed. Each of the factors is then further described below.

No. Funding Compliance

- 1 Cash/cash equivalent position
- 2 Cash plus investments less applications
- 3 Monthly average payments covered by cash or cash equivalents
- 4 Surplus/deficit excluding depreciation offsets
- 5 Property Rates/service charge revenue % increase less macro inflation target
- 6 Cash receipts % of ratepayer and other revenue
- 7 Debt impairment expense % of billable revenue
- 8 Capital payments % of capital expenditure
- 9 Borrowing as a % of capital expenditure (less transfers/grants/contributions)
- Transfers/grants revenue as a % of Government transfers/grants available
- 11 Consumer debtors' change (Current and Non-current)
- 12 Repairs & maintenance expenditure level
- Asset renewal/rehabilitation expenditure level
- 14 Financial Performance Budget result
- 15 Financial Position Budget
- 16 Cash Flow Budget
- 17 Other key performance measures
- 18 Summary question

Funding compliance factor description

Each of these 'funding factors' have been analysed and reviewed in their entirety prior to undertaking any analysis. Where the factor appears unfavourable and cannot be adequately motivated, the budget has been adjusted appropriately.

(a) Cash/cash equivalent position

The municipality forecasts a positive cash position for the medium term as all reserves and working capital are cash-backed. The cash situation seems as if it gets worse, as the funding of the capital projects from own funds has been taken into consideration. History has indicated that although the municipality does not budget for surpluses (maybe too conservative), there were surpluses recorded for the last few years.

(b) Cash plus investments less application of funds

The purpose of this measure is to understand how the municipality has applied the available cash and investments identified at factor 1.

(c) Monthly average payments covered by cash or cash equivalents

The purpose of this measure is to understand the level of financial risk (ability to meet monthly payments as and when they fall due) should the municipality be under stress.

The municipality does recover enough cash on a monthly basis to cover its monthly average payments. The municipality will face a financial risk if unforeseen circumstances have a major negative impact on the revenue from electricity services (which is 57% of the municipality's revenue).

(d) Surplus/deficit excluding depreciation offsets

The main purpose of this measure is to understand if the revenue levels are sufficient to conclude that the community is making a sufficient contribution for the municipal resources consumed each year. An 'adjusted' surplus/deficit is achieved by making transfers to the Capital Replacement Reserve.

This exercise indicates that there will be a surplus after a transfer has been made to the Capital Replacement Reserve.

(e) Property Rates/service charge revenue % increase less macro inflation target

The purpose of this measure is to understand whether the municipality is contributing appropriately to the achievement of national inflation targets. This measure is based on the increase in 'revenue', which will include both the change in the rate or tariff as well as any assumption about real growth (i.e. new property development, services consumption growth).

The increase in tariffs for rates and other services (excluding electricity) range from 6-8% which is more than the inflation target. Electricity increases by NERSA/Eskom of 8% has a major impact on tariff increases. The municipality has increased its tariffs by 6-8% due to implementing one tariff structure for both consumers within old municipal boundaries and rural consumers outside old municipal boundaries.

(f) Cash receipts % of ratepayer and other revenue

This factor is a macro measure of the rate at which funds are 'collected'. This measure is intended to analyse an underlying assumed collection rate; i.e. how much cash is expected to be collected from current billing, charges and arrear debtors.

The assumed collection rate is based on collections of service charges of the current year (2012/13) and is regarded as realistic.

(g) Debt impairment expense % of billable revenue

This factor is to measure whether the provision for debt impairment is being adequately funded and is based on the underlying assumption that the provision for debt impairment (doubtful and bad debts) has to be increased to offset under-collection.

Debt impairment has been based on service charges not collected during the current year (2012/13) and is regarded as realistic.

(h) Capital payments % of capital expenditure

The purpose of this measure is to mainly understand whether the timing of payments is being taken into consideration when forecasting the cash position. The measure focuses on the capital budget, because expenditure levels for this component of the budget can vary significantly from month to month, as there tends to be monthly consistency for operational budgets.

(i) Borrowing as a % of capital expenditure (excluding transfers, grants and contributions)

The purpose of this measurement is to determine the proportion of a municipality's 'own-funded' capital expenditure budget that is being funded from borrowed funds to confirm MFMA compliance. Externally funded expenditure (by transfers/grants and contributions) should be excluded.

(j) Transfers/grants revenue as a % of Government transfers/grants available

The purpose of this measurement is mainly to ensure that all available transfers from other government (national, provincial or district municipalities) have been included in the municipal budget, or that the transfer/grant budgets do not exceed available funds. A percentage less than 100 per cent could indicate that all Division of Revenue Act (DORA), provincial transfers or district transfers have not been budgeted and should be immediately reviewed.

The transfers/grants as per Division of Revenue Act (DORA) (100%) have been included in the revenue budget.

(k) Consumer debtors change (Current and Non-current):

The purpose of these measures is to ascertain whether budgeted reductions in outstanding debtors are realistic.

The amount of outstanding debtors is regarded as realistic.

(I) Repairs & maintenance (R&M) expenditure level

This measure is included within the funding measures criteria because a trend that indicates insufficient funds are being committed to asset repair could also indicate that the overall budget is not credible and/or sustainable in the medium to long term because the revenue budget is not being protected.

The budgeted amount for Repairs and Maintenance is regarded as sufficient as it has increased by 7% from the 2012/13 budget. There was also budgeted in the capital for the replacement of equipment.

(m) Asset renewal/rehabilitation expenditure level

This measure has a similar objective to the R&M measures, but focus on the credibility of the levels of asset renewal plans.

There is no asset renewal plans, but assets are maintained to be operational.

(n) Financial Performance Budget result (surplus/deficit)

The purpose of this measure is to assess the overall budget.

The municipality forecast's a positive cash position for the medium term as all reserves and working capital are cash-backed. The cash situation seems as if it get worse, as the funding of the capital projects from own funds has been taken into consideration. History has indicated that although the municipality do not budget for surpluses (maybe to conservative), were surpluses recorded for the last few years.

The municipality does recover enough cash on a monthly basis to cover its monthly average payments. However, a financial risk is if unforeseen circumstances have a major negative impact on the revenue from electricity services (which is 57% of the municipality's revenue).

(o) Financial Position Budget

The purpose of this measure is to also assess the overall budget.

(p) Cash Flow Budget

The purpose of this measure is to also assess the overall budget.

The municipality does recover enough cash on a monthly basis to cover its monthly average payments. However, a financial risk is if unforeseen circumstances have a major negative impact on the revenue from electricity services (which is 57% of the municipality's revenue).

(q) Summary

The municipality currently does have enough funds and generate enough cash to meets its operational requirements. The financial position of the municipality is monitored on a monthly basis by the Finance Portfolio Committee and corrective steps will be taken, if needed.

7. Expenditure on allocations and grant Programmes

Particulars of budgeted allocations and grants

Operating Budget

•	Finance Management Grant	R 1 300 000
•	Equitable Share Allocation	R 53 158 000
•	Maintenance of Proclaimed Roads	R 172 000
•	Library Services: Conditional Grant	R 1 363 000
•	Human Settlement Development Grant	R 17 687 000
•	Library Services: Replacement Funding	R 3 794 900
•	Expanded Public Works Programme	R 1 000 000

Capital Budget

•	Integrated National Electrification Program	R 500 000
•	Municipal Infrastructure Grant	R 19 299 000
•	Library Services: Conditional Grant	R 2 500 000
•	Library Services: Replacement Funding	R 217 100
•	Provincial Department of Sport and Recreation	R 500 000
•	Provincial Department: Integrated Human Settlements	R 3 700 000
•	Municipal System Improvement Grant	R 890 000

The above allocations and grants have been included in the operating and capital budgets.

8. Allocations or grants made by the Municipality

None

9. Councillor allowances and employee benefits

Allowances and employee benefits:

Councillors

- Salary
- Allowances for Cell phones
- Allowances for Transport
- Contributions

Senior Managers of the Municipality

- Salary
- Allowances for transport
- Contributions
- Performance Bonuses

Other Employees

- Salary
- Housing Subsidy
- Long service bonuses
- Allowances for Transport
- 13th Cheque
- · Contributions to medical and pension fund

Costs to Municipality:

DEFINITIONS

AVAILABILITY FEES: The levying of and the liability for basic minimum fees in respect of immovable property, with or without improvements that is not connected to any municipal service network if such property can be readily connected.

Availability charges are levied on premises which are not connected to Council's water, sewerage or electricity network, but which can reasonably be connected.

Availability charges are not charged in the following circumstances:

- (a) Properties which is smaller than 200 square meters.
- (b) Properties zoned for agricultural purposes,
- (c) Roads, play parks and parking areas belonging to house owners associations.
 (d) Properties which is land locked and cannot be developed. Should the property become accessible through registering of a servitude or pan handle entrance, will availability fees be charged.

Town halls with wooden floors will not be rented out for karate, dances, aerobic or inhouse sport.

Alle organisations and forums used by Council for advice and consultation may use the halls 4 times per year without paying a deposit or the open and closed fee.

If the hall will be used for fundraising by the non-profit organisation or forum the normal tariffs will be appropriate.

The lessee must ensure that condition of the facility are left in the same condition (before 08h00 the next morning) as it was found. Failing to do so, the lessee will forfeit the deposit.

If a hall must be cleaned, the lessee will forfeit the deposit.

All organisations and forums shall however be oblige to officially apply for the use of the halls by writing for record purposes.
